Download App – Apple App Store

Installation · https://nutechtms.com/docs/download-app-apple-app-store/

This guide will help you download and install the Nutech TDG mobile app on your Apple device.

Step 1: Open the Apple App Store

- On your iPhone, locate and tap the **App Store** icon.
- This icon usually appears on your home screen and resembles a blue square with a white “A” in the center.

Step 2: Search for “Nutech TDG”

- In the App Store, tap on the **Search** tab at the bottom of the screen.
- In the search bar at the top, type **“Nutech TDG”** and tap the **Search** button on your keyboard.

Step 3: Select the Nutech TDG App

- Browse the search results and look for the Nutech TDG app by Nutech (look for the official app logo for easy identification).
- Tap on the app name or icon to open its details page.

Step 4: Download and Install the Nutech TDG App

- On the app details page, tap the **Get** button. [Add image of iPhone, Nutech TDG app in App Store]
- If prompted, confirm the download using Face ID, Touch ID, or by entering your Apple ID password.
- The app will begin downloading and then automatically install on your device.

Step 5: Open and Start Using the Nutech TDG App

- Once installation is complete, the **Get** button will change to **Open**.
- Tap **Open** to launch the Nutech TDG app directly from the App Store.
- You can also find the app icon on your home screen to open it anytime.

You’re now ready to use the Nutech TDG app on your iPhone!
