Overview of the Nutech TDG Application

Welcome to the Nutech TDG mobile app, your ultimate solution for safely managing the transportation of dangerous goods. Designed specifically for truck drivers, this app offers a comprehensive suite of features to ensure compliance, safety, and efficiency in every delivery.

Streamline Your Operations

The Nutech TDG app empowers security and compliance with features such as real-time notifications and alerts, hazardous goods catalog and material classification, non-compliance reporting and driver education, and ELD and telematics integration.

Enhance your management and monitoring capabilities with delivery dispatch and logs, digital documentation and archives, TMS and communication integrations, and driver profiles and fleet maintenance tracking. Safely take control of your fleet and cargo—download the Nutech TDG mobile app from the Apple Store or Google Play Store today.
